

Wheels, Wings and Other things

Home Learning Project

Spring Term

This term's Context for Learning is 'Wheels, Wings and Other things'. We will be looking at various aspects of transport throughout the term.

For the home learning project, there is a choice of either:

A) To design and make a model of a vehicle with moving wheels.

Or:

B) To invent a **new** type of transport which has never been seen before and can take you anywhere! Draw a labelled diagram of your new transport.

You will need to include;

- Research into different types of transport.
- A design of your chosen model.
- The finished project (either a model or picture)

Please be as **creative** as you like!

To be handed in after half term -
w/b 27th February 2011
